

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors” or individually a “Director”) of LOCO HONG KONG HOLDINGS LIMITED (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

This report shall remain on the “Latest Company Announcements” page of the GEM website at www.hkgem.com for at least seven days from the day of its posting and on the Company’s website at www.locohongkong.com.

1. GENERAL INFORMATION, REORGANISATION AND BASIS OF PRESENTATION

The Company was incorporated in Hong Kong on 14 January 2014. The addresses of its registered office and principal place of business are Room 2003, 118 Connaught Road West, Hong Kong.

The Group is principally engaged in the trading of metals and commodity forward contracts in Hong Kong as well as property holding.

Pursuant to the reorganisation of the Company (the “Reorganisation”) in connection with the listing of the shares of the Company on the GEM, the Company has become the holding company of its subsidiaries now comprising the Group since 23 July 2014. The shares of the Company were listed on the GEM on 5 August 2014 (the “Listing”). Details of the Reorganisation are set out in the section headed “History, Reorganisation and Corporate Structure” to the listing document of the Company dated 29 July 2014 (the “Prospectus”).

The Group is regarded as a continuing entity resulting from the Reorganisation as there is no change in the economic substance of the Group. Accordingly, these unaudited condensed consolidated financial statements have been prepared using the merger accounting as if the Reorganisation had been completed at the beginning of the reporting period and the current group structure had always been in existence.

The condensed consolidated statements of comprehensive income and condensed consolidated statements of changes in equity of the Group for the nine months ended 30 September 2013 and 2014, and the condensed consolidated statements of comprehensive income for the three months ended 30 September 2013 and 2014, include the results of all companies now comprising the Group as if the current structure had been in existence throughout the respective periods.

No adjustments are made to reflect fair values, or recognise any new assets or liabilities as a result of the Reorganisation.

2. BASIS OF PREPARATION

Except for the adoption of the new and revised HKFRSs which are relevant to the Group’s operations and are mandatory for the financial year beginning on 1 January 2014, the accounting policies adopted in the preparation of these condensed consolidated financial statements are consistent with those adopted in the annual financial statements for the year ended 31 December 2013, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which also include HKASs and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). In addition, the unaudited consolidated financial statements include applicable disclosures required by the GEM Listing Rules. The unaudited condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended 31 December 2013.

These condensed consolidated financial statements have been prepared under historical cost convention, except for certain financial instruments and inventory, which are measured at fair value. These condensed consolidated financial statements are presented in Hong Kong dollars.

The HKICPA has issued a number of new and revised HKFRSs and interpretations that are first effective for the current accounting period of the Company. The adoption of these new and revised HKFRSs has had no significant financial impact on the Group's results and financial position.

The Group has not early adopted the new and revised HKFRSs that have been issued but are not yet effective.

4. OPERATING SEGMENTS INFORMATION

The information reported to the executive Directors, who are the chief operating decision makers for the purpose of resource allocation and assessment of performance, is the financial information of the Group as a whole as reported under HKFRSs. Therefore, the executive Directors have determined that the Group has only one single reportable segment which is metal trading, and no further operating segment analysis thereof is presented.

MANAGEMENT DISCUSSION AND ANALYSIS

Reorganisation

The companies now comprising the Group completed the Reorganisation immediately before the Listing of the Company's shares on GEM. Further details of the Reorganisation are set out in the section headed "History, Reorganisation and Corporate Structure" in the Prospectus.

On 4 August 2014, the Company placed a total of 120,000,000 ordinary shares at the placing price of HK\$0.36 per share (the "Placing") and issued 110,858,022 ordinary shares to a shareholder, credited as fully paid-up, in consideration of capitalization of the loan due by the Group to the shareholders in the amount of approximately HK\$27.7 million (the "Loan Capitalisation").

The Company's shares were successfully listed on GEM on 5 August 2014.

Business Review

The trading of metals, including silver, gold and tin, and the processing of silver products in Hong Kong is the only reportable operating segment of the Group. The Group is one of the few reputable metal traders in Hong Kong which has its own fully integrated processing facilities and is capable of providing a diverse range of silver products to international customers.

The Group's revenue was mainly contributed by the sales of silver products, which accounted for almost 100% of the total revenue. For the nine months ended 30 September 2014, the Group recorded revenue of approximately HK\$1.9 billion from the sales of metal, representing a significant increase of 90% as compared with the revenue of approximately HK\$1.0 billion during the corresponding period in 2013. Such increase in revenue was mainly due to the increase in sales of processed silver products by 118% to 370 tonnes for the nine months ended 30 September 2014 from 170 tonnes during the corresponding period in 2013 and the direct trading of silver products of 22 tonnes.

For the nine months ended 30 September 2014, the Group processed 346 tonnes of silver products which represented an increase of 116% when compared with 160 tonnes during the corresponding period in 2013. Such increase is mainly due to the employment of more workers and the installation of additional processing equipment.

The Group recorded approximately HK\$0.6 million profit for the nine months ended 30 September 2014, representing a substantial reduction of 89% as compared with the profit of HK\$5.8 million profit for the corresponding period of 2013. The decrease in profit was mainly due to the recognition of the listing expenses of approximately HK\$8.2 million during the period under review. If taking out the listing expenses, the Group should have recorded a profit for the nine months ended 30 September 2014 of approximately HK\$8.8 million which represented an increase of 52% as compared with the profit recorded during the corresponding period in 2013.

MANAGEMENT DISCUSSION AND ANALYSIS *(Continued)*

London Silver Price

Before the close of business on 14 August 2014, the sales and purchase price of our silver products were determined with reference to London Bullion Market Association (“LBMA”) silver price. The published single quoted benchmark price for trading silver was widely used as a pricing medium throughout the silver industry. It was available on the website of LBMA namely London Fixing Price and had been adopted by us as one of the reference to LBMA silver price. On 15 August 2014, a new benchmark price namely “London Silver Price” quoted under the new mechanism was published on LBMA’s website. According to the press release of LBMA dated 15 August 2014, the benchmark price will continue to be published and distributed by various data vendors and will be available on the LBMA’s website. After more than two months of operation, the Group perceived that the new pricing method of London Silver Price is functioning smoothly and has no impact on our silver trading operation.

Outlook

The preparation work of submitting the application for the license of the electrolysis is in progress. The Company has engaged Hong Kong Productivity Council to proceed the sampling and analysis of electrolysis solution for the license application. The Directors expect that the license application will be submitted by the end of 2014.

The silver price fluctuation and the global economy atmosphere impose significant impact on demand and supply of the physical silver market. The silver price recorded a significant drop of 12.5% from US\$19.41 per ounce on 1 January 2014 to US\$16.98 per ounce on 30 September 2014 and remains at the level of US\$17 for most of the period in October 2014. The silver price recorded a further reduction of 4.8% to US\$16.16 per ounce on 31 October 2014. The supply of silver scraps in Hong Kong has fallen sharply as a result of the international silver price remaining at comparatively low level. The volume of the silver processing and sales of the Group during October 2014 has been adversely affected and so for the coming quarter of 2014. However, interest income of the Group is picking up as some of our clients delay the price fixing of their silver transactions due to the continuously low silver price level. The Board considers that the overall financial position and operations of the Group remain sound and healthy.

The management is optimistic that the listing of the Company’s shares on GEM and the net proceeds from the Placing will undoubtedly enhance the Group’s brand image and strengthen its financial position.

Financial Review

For the nine months ended 30 September 2014, the Group recorded a total income of approximately HK\$1.9 billion, representing an increase of 90% against the corresponding period in 2013. Profit for the period under review was approximately HK\$0.6 million, a decrease of 89% as compared to the corresponding period in 2013, which was mainly caused by the recognition of the listing expenses of approximately HK\$8.2 million.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the period under review, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

COMPETITION AND CONFLICT OF INTEREST

Apart from the business of our Group, Mr. Tan is also engaged in the other businesses including directly and indirectly owned (i) approximately 55.71% equity interests in GobiMin Inc., which is engaged in the exploration and exploitation of mineral resources in Xinjiang, PRC, shares of which are listed on the TSX Venture Exchange in Canada, and (ii) approximately 18.96% equity interests in Timeless Software Limited ("Timeless"), which is principally engaged in the information technology business and mining business, and shares of which are listed on GEM, as at 30 September 2014.

COMPETITION AND CONFLICT OF INTEREST *(Continued)*

Our Directors believe that the investments referred above are in completely different sectors from that of our Group and therefore do not and will not compete with the business of our Group. Our Group is mainly engaged in the trading of metals in Hong Kong, while GobiMin Inc. is involved in upstream activities of exploration and mining which involve entirely different technologies, machinery and expertise. Accordingly, our Group and GobiMin Inc. and its subsidiaries (“GobiMin Group”) are positioned in different specialised segments of the industry. The products of GobiMin Group may be similar with that our Group such as gold, but the market of GobiMin Group is in the PRC while our Group is in Hong Kong and overseas (excluding the PRC) and as such, our Directors consider that there is no overlapping in respect of the market between GobiMin Group and our Group. Furthermore, Timeless is involved in the information technology sector and mining business which is entirely different from our metal processing and trading business. On 19 May 2014, the Group engaged Timeless to design and build a trading software system at a cost of HK\$342,000 with an annual maintenance fee of HK\$57,000. Mr. Tan and Ms. Tsang Wai Chun Marianna, the Company’s Directors, also act as directors of Timeless.

Mr. Tan, a director of both of our Group and GobiMin Group, has entered into a deed of non-competition in favour of our Group. Details of the deed of non-competition are set out in the section headed “Relationship with Our Controlling Shareholders” in the Prospectus.

Apart from those disclosed above, to the best knowledge of the Directors, none of the Directors, management, shareholders or substantial shareholders of the Company or any of its respective associates has engaged in any business that competes or may compete, either directly or indirectly, with the businesses of the Group, as defined in the GEM Listing Rules, or has any other conflict of interests with the Group during the nine months ended 30 September 2014.

INTERESTS OF THE COMPLIANCE ADVISER
