

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

MANAGEMENT DISCUSSION AND ANALYSIS

Reorganisation

The companies now comprising the Group completed the Reorganisation immediately before the Listing of the Company's shares on GEM on 5 August 2014. Further details of the Reorganisation are set out in the section headed "History, Reorganisation and Corporate Structure" in the Prospectus.

On 4 August 2014, the Company placed a total of 120,000,000 ordinary shares at the placing price of HK\$0.36 per share (the "Placing") and issued 110,858,022 ordinary shares to a shareholder, credited as fully paid-up, in consideration of capitalisation of the loan due by the Group to the shareholder in the amount of approximately HK\$27.7 million (the "Loan Capitalisation").

The Company's shares were successfully listed on GEM on 5 August 2014.

Business Review

During this quarter, the continuous downturn of the silver market prices led to a decrease in the overall supply of silver scraps in Hong Kong. Accordingly, the contraction of the silver market adversely impacted the processing and sales volumes of the silver products of the Group.

For the nine months ended 30 September 2015, the processing volume of silver products of the Group amounted to approximately 196 tonnes (2014: approximately 346 tonnes), representing a decrease of 43% as compared to the corresponding period in 2014. For the nine months ended 30 September 2015, the sales volume of processed silver products amounted to approximately 180 tonnes (2014: approximately 370 tonnes), representing a year-on-year decrease of 51%, and the direct trading of silver products amounted to approximately 4 tonnes (2014: approximately 22 tonnes), representing a decrease of 82%.

As the silver sales business is the main source of income of the Group, the reduction of sales volume of silver product resulted in a drop of 61% in the Group's total income for the nine months ended 30 September 2015 as compared to the corresponding period of last year.

Outlook

Corresponding to the drop of the metal market prices, the international silver price recorded a decline of approximately 7.69% from US\$15.73 per ounce on 1 July 2015 to US\$14.52 per ounce on 30 September 2015, and maintained at around US\$14.75 per ounce during most of the quarter. Taking into account that the global risk assets suffered major losses, and the stock market and commodity market both adopted obvious adjustments during the past three months, the global economy, as a significant factor influencing the international silver price, may hardly perform well in the short run. Accordingly, the silver price may stay within a narrow range and/or further search for a near-term-bottom in the forthcoming quarter. It is expected that the Group would remain suffer from the decreasing tendency in silver price and re-export volume in Hong Kong in the next quarter.

Our laboratory staff has finished the staff training program organized by Hong Kong Productivity Council. We are in the course of evaluating the test results against the analysis report prepared by independent laboratory. Upon satisfaction of the accuracy check, the Group can achieve in cost reduction and promoting the effectiveness of the processing facilities through testing the raw materials by ourselves.

The Group is expected to face both opportunities and challenges to undergo another stage of development and will timely adjust its business strategies to cope with the market fluctuations.

MANAGEMENT DISCUSSION AND ANALYSIS *(Continued)*

Financial Review

For the nine months ended 30 September 2015, the Group recorded a total income of approximately HK\$0.8 billion, representing a decrease of 61% against the corresponding period in 2014. Profit for the period under review was approximately HK\$1.3 million, as compared to the profit of approximately HK\$0.6 million recorded in the corresponding period of last year. The profit incurred in the corresponding period of last year included the recognition of the listing expenses of approximately HK\$8.2 million. If ignoring such expense, the Group should have recorded a profit for the nine months ended 30 September 2014 of approximately HK\$8.8 million. Under this scenario, the profit recorded for the current period was dropped by 85% as compared with the corresponding period of last year even though a gain on disposal of property, plant and equipment of approximately HK\$0.8 million was recorded during the period. The decrease in profit was mainly due to (i) the decrease in sales of silver products which in turn was caused by the inadequate silver supply resulting from the low silver market price; and (ii) increase in staff cost by 64% to approximately HK\$4.9 million as more staff was employed in the current period as compared to last corresponding period and recognition of approximately HK\$0.5 million share option expense for the share option granted on 10 April 2015.

Significant investments, acquisitions and disposals

There were no significant investment held as at 30 September 2015, nor other material acquisitions and disposals of subsidiaries during the period.

COMPETITION AND CONFLICT OF INTEREST

Apart from the business of the Group, Mr. Tan is also engaged in the other businesses including directly and indirectly owned (i) approximately 62.17% equity interests in GobiMin Inc., which is engaged in the exploration and exploitation of mineral resources in Xinjiang, PRC, shares of which are listed on the TSX Venture Exchange in Canada, and (ii) approximately 25.94% equity interests in Timeless Software Limited (“Timeless”), which is principally engaged in the information technology business and mining business, and shares of which are listed on GEM, as at 30 September 2015.

Our Directors believe that the investments referred above are in completely different sectors from that of the Group and therefore do not and will not compete with the business of the Group. The Group is mainly engaged in the trading of metals in Hong Kong, while GobiMin Inc. is involved in upstream activities of exploration and mining which involve entirely different technologies, machinery and expertise. Accordingly, the Group and GobiMin Inc. and its subsidiaries (“GobiMin Group”) are positioned in different specialised segments of the industry. The products of GobiMin Group may be similar with that the Group such as gold, but the market of GobiMin Group is in the PRC while the Group is in Hong Kong and overseas (excluding the PRC) and as such, our Directors consider that there is no overlapping in respect of the market between GobiMin Group and the Group. Furthermore, Timeless is involved in the information technology sector and mining business which is entirely different from our metal processing and trading business.

Mr. Tan, a director of both of the Group and GobiMin Group, has entered into a deed of non-competition in favour of the Group. Details of the deed of non-competition are set out in the section headed “Relationship with Our Controlling Shareholders” in the Prospectus.

Apart from those disclosed above, to the best knowledge of the Directors, none of the Directors, management, shareholders or substantial shareholders of the Company or any of its respective associates has engaged in any business that competes or may compete, either directly or indirectly, with the businesses of the Group, as defined in the GEM Listing Rules, or has any other conflict of interests with the Group during the nine months ended 30 September 2015.
